# MD ASADUZZAMAN MINHAZ

Full-Stack Software Developer
Dhaka, Bangladesh | +880 1892432088 | mdasaduzzamanminhaz3@gmail.com
github.com/mdasaduzzamanminhaz3 | linkedin.com/in/asaduzzaman-minhaz

## PROFESSIONAL SUMMARY

Full-Stack Developer with hands-on experience building and deploying scalable web applications using React.js, Next.js, Django REST Framework, and Express.js. Skilled in REST API design, real-time features with WebSockets, role-based access control, JWT/OAuth authentication, and payment gateway integration. Delivered three production-deployed projects with live demos. Seeking a software engineering role to contribute to impactful products.

## TECHNICAL SKILLS

**Languages:** Python, TypeScript, JavaScript (ES6+), C++, HTML, CSS
**Frontend:** React.js, Next.js, Tailwind CSS, Bootstrap, shadcn/ui
**Backend:** Django, Django REST Framework, Django Channels, Node.js, Express.js
**Databases & Cache:** PostgreSQL, MongoDB, MySQL, Redis, Supabase
**Auth & Security:** REST API Authentication, JWT, OAuth, Session Authentication, Better Auth, RBAC
**Architecture:** RESTful APIs, WebSockets
**Tools & Deployment:** Git, GitHub, Vercel, Netlify, Railway, Supabase, Render

## PROJECTS

### Eco-Track | Waste Management Platform

Live Site | Client Code | Server Code

- Built a full-stack platform connecting individual users with recyclers for structured waste collection.
- Implemented JWT authentication, role-based access control, and an automated waste pickup request workflow.
- Developed real-time two-way chat using Django Channels and WebSockets.
- Created a Green Points reward wallet and leaderboard to encourage user participation.
- Designed REST APIs to track recycling transactions, user activity, and environmental impact statistics.

### NewsIque | Online Newspaper Platform

Live Site | Client Code | Server Code

- Developed a multi-role news platform with separate management portals for administrators, editors, and subscribers.
- Implemented email-based authentication, account activation, and JWT-secured API routes.
- Integrated the SSLCOMMERZ payment gateway for premium subscription billing with automated payment verification.

### Ayojon | Event Management Platform

**Tech:** Next.js, TypeScript, Node.js, Express.js, MongoDB, Better Auth, Tailwind CSS

Live Site | Client Code | Server Code

- Built a full-stack platform where users can discover, create, manage, and join community events.
- Developed REST APIs with Node.js and Express.js for event creation, management, and participation.
- Modeled events, categories, and participation records in MongoDB.
- Secured user-specific features with Better Auth; organizers can create, update, and delete their own events.

## EDUCATION

**Diploma in Computer Science and Technology** | Brahmanbaria (Govt.) Polytechnic Institute

## SOFT SKILLS

Adaptability, Emotional Intelligence, Public Speaking, Student Mentorship
